## **An interesting Golf Fact you haven't heard before:**

### **"There's a 12,500 to 1 Chance of Making a Hole-in-One"**

*Oh, the hole-in-one. It's what all golfers strive to achieve. Are you struggling?*

*Don't worry — you're not a bad player. The odds are against you.*

*There's a **12,500 to 1 chance** a typical golfer will make a hole-in-one. That's because the width of the hole is so small. Even professional golfers can go their whole career without making a hole-in-one!"*

Happy golfing, stay safe and healthy!
