**3.0 Upgrade:**

2.2 The amount of refund on a golf card shall be calculated based upon the number of rounds actually played by the Member. Each round shall be valued at the actual daily resident fee, based on the date and time played during the active period of the card. The cost of each round played shall be totaled and that amount subtracted from the original cost of the card. An administrative fee as approved by the RCSCW Governing Board shall be applied to the refund. The remaining amount shall comprise the refund amount.

3.1 A request for an upgrade to an existing golf card will be accomplished by submitting the request form. The calculation on the existing golf card will follow Section 2.2 above. The remaining amount will then be applied to the cost of the upgrade golf card and any balance due will be payable.
