

Doris Miller

My name is Doris (Dori) Miller. I am married to John Miler. We have lived in Sun City West for 20 years. John and I have eight children between the two of us. We have 18 grandchildren and 14 great grandchildren. My mom and dad moved to Arizona in 1977 and then to Sun City West in 1985. I was born in Lorain, Ohio, and although I lived there for 61 years Sun City West is truly my forever home.

I was a stay-at-home mom for the first 20 years and then became a floral designer and ran a shop for 10 years. I switched to being a car salesman for a great dealership and worked for them for seven years. I was the top salesman for the last three years. I enjoyed helping people get themselves a car and being happy with their purchase.

In 2003 my mom got Alzheimer's, so we quit our jobs, sold our home and moved to Sun City West to help my sister Bev care for our mom.

In 2010, I applied for a job with the Recreation Centers and was hired. For eight years, I gave tours of our facilities to new residents and some who were just looking. Many of the lookers became residents. It was great to see their faces on the tours as to what they had just bought into. It was a very fulfilling job. I have met so many wonderful residents and have made many friends. I was offered a job as the senior office coordinator and did that job for 5 ½ years and would meet with club members when they needed help with club issues. I retired on Dec. 22.

Duties handled: Questions about starting and closing clubs along with the paperwork; CR7 Financials; CR 8 Contracts; CR 9 Waivers; CR10 Club Purchases over \$300, which included the inventories; CR13 Paperwork; CR14a Reciprocal; CR15 Year-end Club Membership; paperwork for club name changes; paperwork for clubs that dissolve and joined together so that they can continue to thrive; I started the Talent Spotlight in 2012.

Present time: This is a wonderful community to live in. The amenities we have are top notch. The employees strive to make this community better every day. The employees are the backbone of Sun City West and keep it running like a well-oiled machine. The Chartered Clubs are the lifeline of this community and have given members so much to do!

I feel that my knowledge of the community and clubs will help other members understand how this community works. I want to do my part to make Sun City West not No. 2 but No. 1. I will be attending TORCH to learn more about the community. This community needs to work together and be proud of what we have here.
