

Jolene Piaskowski Bio

My name is Jolene Piaskowski.

I am passionate about running for an elected position on the Recreation Centers of Sun City West Governing Board because I have decided it is time for me to make a personal commitment to serve our community. My husband and I have lived in SCW since 2018. I worked in RCSCW Golf Operations and Events Department for five years. After retiring from Operations in 2022, I had the free time to join clubs and enjoy our community on a different level.

Currently, I am actively involved in ARC, Rip n' Sew and the Tennis Club. I have also organized Swing into Spring (a large tennis tournament) where more than 150 players participate in a friendly weekend of competition.

I have been actively involved in every community I have lived in. As a 15-year stay-at-home mom in Nebraska, I enthusiastically volunteered and initiated programs to support local school PTA programs. At the time, I started two successful in-home businesses, "A Note for You" personal stationery and "Neat and Sweet" lifestyle organizing. There's nothing like starting small businesses to develop business insights!

If elected, I am committed to full transparency and acting as a watchdog for SCW residents. With a strong commitment to effective budget management and efficient administration, I am dedicated to fostering positive change within our community. I want to adopt a proactive approach to problem solution and initiate business solutions to ensure SCW thrives.

To substantiate my commitment to SCW, I have attended numerous Board and Committee meetings, demonstrating my dedication to and genuine interest in ongoing community affairs. By attending these meetings, I am fully aware that a Board Director position entails substantial time commitment. I am prepared to dedicate the necessary time and effort to fulfill Board Director responsibilities.

I affirm that I will be an outstanding team player and ensure good communications between the Board, Operations and the community to strengthen programs and make information and insights broadly available. I want to help harness the diverse talents and skills of our community for "the greater good," an exercise that is currently not fully exploited.

I hope that you will vote for me in the upcoming March 2024 Governing Board Director Election. Thank you.
