

John Schalk

I was born and raised in Chicago and became familiar with the Sun City/Sun city West communities as a youth when I made annual visits to Sun City to visit my grandfather. After graduating from high school I attended Eastern Illinois University, majoring in accounting. I worked for the electric utility in Illinois for 37 years, working in the audio/visual department. While working I achieved corporate goals, and cut costs for the department. After I retired, I moved to Sun City West in 2017. Since moving here, I have served on Boards of four clubs. I was as the President of the Silvercraft club, and currently serve on the Boards of two clubs. As a member of the Board Of Governors, I want to insure that the Board oversees management operations as the Association By-Laws require. In my role I will see that all assets are preserved, and that all facilities are being maintained. I look forward to helping provide the best services at the lowest cost of annual dues possible. Sun City West is a great place to be, and I want to continue making it a desirable place to live.
