

Louis J. Mancuso, Jr.

I am a Pennsylvania native son but spent all but 5 years in New Jersey before retiring to Sun City West (SCW) in 2007 as a full time resident in our “resort community”..

A graduate of Bordentown Military Institute in 1965, Seton Hall University in 1969 and a US Army veteran 1970 to 1976, ultimately served as the Section Chief of the 50th Division Artillery Headquarters’ Aviation Wing of the New Jersey National Guard..

My career includes being a principal in a family owned retail food business, an owner of a commercial refrigeration business and an owner of a small apartment complex. In 1983 I accepted a position with the New Jersey Department of Corrections (NJDOC) where I was a fiscal analyst and in the early years, absent an Information Technology department, became the computer go-to person. My computer related duties expanded as did the technology needs for the Department. With the help of a wonderful staff, we moved the NJDOC from paper into the computer era and I eventually became the Chief Information Officer for the NJDOC. Ultimately I became the Director of Project Management for Information Technology for the State of New Jersey.

My interests in SCW include golf, the Lapidary, Silver, Boomers, Metal and Computer clubs. A graduate of the TORCH program and I have served as the:

- President of the Lapidary club
- Vice President of the Boomers club
- Chair Silver Club Bylaws revision committee
- Long Range Planning Committee – 2 years
- Sports Pavilion Committee – 5 years
- Budget and Finance Committee – 1 year
- Elected to the Governing Board 2021, however due to my challenge of the establishment, unfortunately I was recalled. To that I say this, which is a quote from Ted Lasso: I hope that either all of us or none of us are judged by the actions of our weakest moment, but rather by the strength we show when and if we are ever given a second chance.

If I am elected to represent our community as a Governing Board Director my goals are:

- Ensure our community is fiscally sound
- Ensure our facilities, clubs and community are meeting the needs of our changing demographics.
- Ensure we have a safe community to enjoy our retirement years.
- Ensure our golf courses remain as high quality courses at a reasonable price
- Work with our Information Technology department to continue expanding our technology footprint

SCW has been rated as one of the top ten best places to retire in the USA; I pledge to work with the Governing Board and listen to the residents to ensure our community continues to be one of the best places to retire in the USA.
